Dear

Your ref HILL'TON/0125

**Hillington S101A Sewerage Scheme - Invitation to connect**

**If you are not the property owner please pass this information to the owner.**

We are pleased to inform you that we will be providing a new sewerage system for Hillington to collect your household used water. Construction of the sewer is currently programmed to commence in August of this year.

Enclosed with this letter is an information brochure with details about the scheme and questions and answers relating to connecting to the new public sewer. Please note the new sewer is for the collection of household used water only and not for the disposal of surface water. The brochure also explains what you are responsible for as the property owner and the "one-off connection offer" that Anglian Water is giving to those who sign up for a connection before the sewer is constructed. An agreement form is included at the back of the brochure for you to sign to indicate your acceptance or not of the offer.

To give residents individual guidance on connecting to the sewer we have arranged a public open day at the **Ffolkes Arms on Thursday 13<sup>th</sup> July 2017 between 2.30pm and 7.30pm**. The purpose of the day is to allow representatives from Anglian Water to meet with the residents individually and to provide information about the project, discuss any queries they may have about the scheme, the Anglian Water "one off connection offer" and connecting to the sewer. Non household customers may also choose to speak to their retailers if they have any questions. \*

We hope to see you on the day even if you are not a property owner.

If you are able to return your signed agreement by **8th September 2017** it will greatly assist us in planning our works.

If you are unable to attend the open day and/or would like more information and advice, please call me on 01733 414460 or email [jlambert@anglianwater.co.uk](mailto:jlambert@anglianwater.co.uk)

Yours sincerely,

John Lambert
